

Date: 14 February 2020

To: All Contractors

cc: All Maintenance - Supervisors/Asst. Supervisors/Project Managers

From: John Clarkson – Assistant Controller Maintenance Services
Izabela Borowski – Manager of Maintenance & Facility Renewal

Re: **Asbestos Procedures**

This is a reminder that prior to undertaking any work in a PDSB site that may disturb asbestos containing materials, first consult the custodian. Then check the marked up asbestos floor plan and corresponding report located in the custodian's office in the red binder. Discuss the report and work with the custodian prior to commencing work.

If you cannot locate the floor plan and report or you do not understand the report, **do not proceed**. Please contact the PDSB maintenance supervisor that assigned the work for further direction.

Attached for your reference is a list of PDSB locations that have asbestos containing materials.

If after the review of the asbestos floor plan and report, you determine that the work you are there to perform may disturb asbestos containing material **do not proceed**. You must contact the PDSB supervisor (both verbally and by email) that assigned the work for further instructions.

For any clarifications please contact the PDSB supervisor who oversees your contract.

APPENDIX A

The following PDSB locations have all, or portions of, the location with construction built prior to 1990 and have been surveyed for asbestos-containing materials. Locations constructed after 1990 are assumed to not contain asbestos-containing materials and are not listed.

Adult Education Centre – South
